The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1 and 2 are rejected under 35 U.S.C. 102(e) as being anticipated by US 6,465,742 (hereafter Hiraoka).

Hiraoka discloses, referring to figure 4A, a multilayer circuit board comprising: a plurality of cable layers (6a,b) each of which includes electric conductive sections (7); a plurality of first insulating layers (8), each of which encloses said electric conductive sections in each cable layer and fills spaces between said electric conductive section sections and post vias (10) electrically connecting said electric conductive sections in one cable layer to those in another cable layer, wherein height of said electric conductive sections in each cable layer are equal to that of said first insulating layer enclosing those electric conductive sections (see col. 21, lines 50-68)[claim 1], further

comprising a second insulating layer (8) which is formed to enclose said post vias, wherein height of said post vias are equal to that of said second insulating layer (see col. 21, lines 50-68) [claim 2].
